

HERE ARE ALL THE SUPPLIES YOU NEED TO

MAKE A KAZOO!

VIDEO DIRECTIONS CAN BE FOUND AT:

<https://youtu.be/zgEpdjdZK98>

SUPPLIES:

- one #64 sized rubber band
- two small rubber bands
- one straw
- scissors (not in this baggie)
- two tongue depressors
- Washi tape (optional and not included in this baggie)

Video directions can be found at:

<https://youtu.be/zgEpdjdZK98>

DIRECTIONS:

1. Take the thick rubber band and wrap it around one of the tongue depressors from end to end.
2. Take the straw and cut off two pieces. Make sure the two pieces stick out wider than the width of the tongue depressor (about 1 1/2-2")
3. Take one of the straw pieces and place it **UNDER** the rubber band towards one end of the tongue depressor.
4. Place the other tongue depressor on top of the one that has the rubber band and straw piece.
5. Take one of the small rubber bands and wrap it around the end of the tongue depressor that has the straw piece. This will keep both tongue depressors in place.
6. Take the second straw piece and place it **ON TOP** of the rubber band but between the two tongue depressors. It's important that one straw piece is **UNDER** the rubber band and the other one is **ON TOP** of the rubber band.
7. Take the other small rubber band and wrap it around the end of the tongue depressor so that both ends are secure.
8. If you have Washi tape at home you can decorate your kazoo. Do not wrap the Washi tape around your kazoo the short way. Wrap it around the long way. It's okay to place it over the thick rubber band when you wrap it around the kazoo.
9. You can also decorate your kazoo with markers. You will want to use permanent makers so that when you put your mouth on the kazoo the ink doesn't come off on your lips. ;-)
